SUMMARY

Dedicated and results-driven professional with more than two years of solid experience at Exicom tele System, where I successfully transitioned from a previous role to that of a Smt Team Leader and Operator. I have honed my skills in software development and demonstrated a keen ability to adapt to new challenges. Now, as I explore new opportunities, I am excited to leverage my expertise as a Java Developer, contributing to innovative projects and elevating the technological landscape of a progressive company.Looking to migrate to java Developer and face new challenges that I will learn from.

EDUCATION

B.tech(ECE)   2015 - 2019
Bhagwant Institute Of Technology   Muzaffarnagar, UP
- Emphasizes the development of critical thinking and analytical skills.
- I learnt how to gather, evaluate, and synthesize information from various sources

- Track and monitor the production quantity to meet targets and deadlines.
- Implement process improvements to enhance productivity and reduce errors.
- Manage a database of production-related information, including the assembly quantity, Purchase Orders (P.O), and Part Numbers (PartNo).
- Regularly update and maintain the data repository for accurate and accessible records.

PROJECTS

Banking Management System   2023
Self

Banking Experience
- In which I have use NetBeans IDE, Java Language, MySQL database.
- In this project, I create a Sign Form to register new person details for banking purpose.
- Second, Login Form for already registered person.
- Third, For withdraw, Credit, Check Balance
- And All other function use in this project like wrong entry password & user id detect.

TRAINING / COURSES

Core Java
Udemy - *2022, Grade A*

Advance Java
DurgaSoft- 2023, Grade A

Embedded C
Ice Technology Lab - 2017, grade A

Latest Advancement In Engineering & Nature Science
Bhagwant Institute Of Technology

TECH SKILLS

Tech Stack
Java · SPRING · J2EE · REST · CSS · HTML · jQuery

Data Engineering
SQL · MySql

Development
Eclipse · Maven · GIT · Intellij Idea

SOFT SKILLS

Project Management
Managed projects & Production during Time period.

Team Leadership
Managed multiple cross-functional and distributed teams.

Analythical Thinking
Having faced many challenges throughout the years, I have improved my way of seeing problems in an analytical and creative way
